

4-C MEMORANDUM 2/17

From: H. Liskien ²
H. Potters
A. Schett

Subject: 4-C Memos 3/32 and 3/33, and request for
changes to dictionary 3

9th March 1971

1. We agree with all the proposals made in 4-C Memo 3/32.
2. We agree with proposal (B) of 4-C Memo 3/33 but are only in agreement with adding OTHER to dictionary 15: we have several similar examples as quoted by NDS and are afraid that dictionaries 10 and 14 will very quickly contain all inverse reactions and other reactions outside the scope of EXFOR.
3. In the Protocol, CCDN's service area is defined as "non-American member states of the OECD, that is, western Europe and Japan". Taking into account the recent political developments, we request that in dictionary 3, 3SF[^]-HLS, 3SF[^]-HLT and 3SF[^]-SF[^] be changed to 2SF[^]-HLS, 2SF[^]-HLT and 2SF[^]-SF[^] respectively.
