 Subject : Area 1 natural chromium entries

DAT/324-0

Statistics for area 1 natural chromium :

Blocks	Records	
14	42	On database at time of CINDA-B and CINDA-84 production
11	23	Appearing in CINDA-B
1	5	Appearing in CINDA-84
114	358	Missing from database at time of CINDA-B and CINDA-84 production
65	129	Missing from CINDA-B
13	42	Missing from CINDA-84

In future all CINDA books and the 1984 autumn supplement will include all post-1976 area 1 natural chromium blocks. (1976 is the cut-off date for CINDA-B). The 28 records and 12 blocks which did appear in CINDA-B and CINDA-84 will thus be duplicated in future books. This duplication does not justify creating a special flag for the omitted centres.
