Subject: Comments on TRANS 1012

31 January 1973

10012. STANDARD missing for NA and NP cross-sections.

10013.001 Under REFERENCE: what does "(2)" behind the page number mean?  
.010 Serious mistake !!  
ISO-QUANT is not 92-U-236,NG but 92-U-234,NG,,MXW.  
Accordingly, EN must be changed to EN-DUMMY.

10152.002 ISO-QUANT should have modifier MXW.

10159. STANDARD missing for EL,DA cross-sections.

10237.001 INDC(USA)-38 /72 new report code, added to dictionary.  
We would like to point out that in this series the codes INDC(US)- and INDC(USA)- are used at random.

---

10256.001 Invalid code NAI for DETECTOR.

10256.004 Serious mistake !!  
ISO-QUANT should be 60-ND-143,STF not 60-ND-145,STF.
