

Memo 4C-3/96

15 February 1974

To: Distribution
From: H.D. Lemmel *lem*
Subject: Lab-Dictionary, WRENDA

In WRENDA some lab-codes had to be introduced which do not exist in the EXFOR lab-dictionary, since these institutions do not produce neutron data. See the list attached.

Since WRENDA is a 4-Centers operation as well, I feel that it will be most convenient for all parties involved, if these WRENDA lab-codes are included in the EXFOR lab-dictionary.

If no objection arises in due time, I shall add these codes to the lab-dictionary with the next update.
