

Memo 4C-3/134

To: Distribution

6 August 1975

From: J.J. Schmidt

Subject: CODATA Directory of Scientific Data Sources

We have been asked by CODATA to provide input for a planned CODATA Directory of Scientific Data Sources, and perhaps the other centres have been approached, too. In order to give the directory entries on our Four Centers a consistent appearance, we have prepared draft entries for each of the Four Centers.

I would like to ask each center head to revise and complete the draft entry on his center and to send it directly to CODATA
