Subject: Entry 40226 on Trans 4022

22 September 1975

HDL

Please note that in entry 40226 the reference should be YF, 10,44,6907 instead of NP, 10,44,6910.

On this occasion we would like to stress that names of journals should never be translated into English, since this leads inevitably to confusion.

We propose adding a note to this effect in Lexfor under "Free Text": "The language of the free text is English. However, names of journals or other names should not be translated into English. Write 'Jadernaja Fizika', and not 'Nuclear Physics' which means something else."
