

Memo 4C-3/149

To: Distribution  
From: Pamela Attree *PAA*  
Subject: N1 count on ENENTRY record

1975-11-20

When transmitting entries containing 'NOSUBENT' NNCSC have included these in the count N1 in the ENENTRY record. We consider this to be absolutely correct, but think it should be reflected in the EXFOR manual. The following should be inserted on page III.5 immediately before (8):

"Note that when NOSUBENTRY records are included in a work, then they should be counted as sub-works when computing N1."

Clearance: J.J. Schmidt *U*
