

Memo 4C-3/157

To: Distribution

2 March 1976

From: ^{Schwerer} O. Schwerer + ^{Lemmel} H.D. LemmelSubject: Exfor Entry 20480.

- 1) This entry apparently contains partially data already transmitted in entries 20405, 20406, and 20407, although no cross-reference was entered under STATUS or HISTORY. The detailed correspondence is:

<u>New Acc. No.</u>	<u>Old Acc. No.</u>	<u>Remarks</u>
20480.002	20405.002	Data identical except EN-RSL
003	20406.002	" " " "
005	20406.003	" " " "
008	20406.004	" " " "
011	20405.003	" " " "
012	20406.005	" " " "
015	20407.002	Data completely identical

- 2) The information on samples is entered under keyword "REFERENCE" instead of the appropriate keyword "SAMPLE".

It seems that entry 20480. is an unintentional duplicate compilation and we would like to request a retransmission to the effect that either entry 20480 or entries 20405-20407 be deleted with appropriate documentation.

By the way: we noticed that entry 60997 seems to be superseded by entry 20483.
