Memo 4C-3/186

To: Distribution

From: Pamela M. Attree *J/wA*.

Subject: TRANS 1056

           Entry 10422, Subentries 002 to 006

    In these subentries the system identifier XDATA has been used.
However, the first and last lines of the data-tables which are to be
left unaltered were not included. Please refer EXFOR Manual pages III.9
and IX.2 §4.

    This caused us some trouble, as our programs have been written
according to 4-Centre agreements and the EXFOR Manual. In this case,
in order to get the information into our master files we have made
the necessary modifications, and therefore do not request a retransmission,
but we would ask NNCSC in future please to follow the rules concerning
XDATA.
