Cinda Coding Manual

Congratulations for cover and contents of the new Cinda Coding Manual! May we have 5 more copies?

We would like to suggest addition of the following items:

1. A more complete description of the coverage control system. The cross-reference to Memo 4C-2/75 is less convenient.
2. Inclusion of the contents of Memo 4C-2/92 on the functioning of main lines and block head.
3. The responsibilities for preparing Cinda entries as in the CINDA Memo by H.D. Lemmel of 1974/3/1.
4. The CCDN/NDS interface format for the book production as of 1972/11/13 by P.M. Attree.

It is realized that not all of these items are needed by all Cinda co-workers but the Cinda Coding Manual should be the most convenient place to store these essential items.
