Subject: Cinda cosmetic reader code

We would like to remind Cinda-indexers to use, for the Supplement issues, the "cosmetic reader codes" along the lines given in the CCDN CINDA Coding Manual 1977, p.II.5.3.

At a superficial check of the contents of the next Supplement's booktape, we found several cases of reblocked or changed entries which should not appear in the Supplement, like, e.g.:

Li 7 Total 1.0+4 1.5+7 HAR Eval Rept AERE-E-7166 Jul72....,

which is a single line and where only the comment was very slightly changed (namely from 'Conlon+ Recommended data,tbl,graph' to 'Conlon.Tbl,grph recommended values.')

Whereas the total number of such cases in the present Supplement is probably not alarming, it should be remembered that an unnecessary increase of the volume of the Supplement books has an impact on the Cinda salesprice.
