Subject: TRANS 3026

Reference: 4C-1/122(b) of 77/12/29

We appreciate the comments on TRANS 3026. Entries 30396. and 30413. will be retransmitted accordingly.

The differential gamma-multiplicity data in entry 30411. are proportional to differential cross-sections, and we believe that our coding with ARB-UNITS is formally correct. Whether more specific quantity-codes for gamma-multiplicities with appropriate unit codes such as "GAM/SR/FIS" or "GAM/FIS/SR" should be introduced, is another question. We do not suggest to introduce such codes for the single exceptional case that we had, but would like to review the matter again should such data be coded more often.
