Subject: INDL/V and INDL/A, Minsk evaluations

Please note that we were advised by V. Konshin that the following evaluations are to be considered as obsolete:

INDL/V-9210 U-235 = SOKRATOR-2022
INDL/V-9420 Pu-239 = SOKRATOR-2021
INDL/V-9430 Pu-240 = SOKRATOR-2023

The present status of Minsk evaluations is as follows:

U-235 : new evaluation is in process
Pu-239 : new evaluation was received at NDS; it is being checked and prepared for distribution as INDL/V-9421
Pu-240 : new evaluation was dispatched from Minsk but not yet received at NDS
Pu-241 : available as INDL/A-2024
Pu-242 : available as INDL/A-2025

We would like to stress that both parts of INDL are collections of existing evaluations. Comments about their status will be added gradually in the respective documentations IAEA-NDS-12 resp. IAEA-NDS-31.
