

21 February 1985

To: Distribution

From:  
M. Lammer and H.D. Lemmel

Subject: CINDA publication schedule and tentative price estimates

Please find attached the proposed publication schedule for 1985 which has been worked out similar to the previous schedules.

The final price for CINDA-85 will be communicated as soon as possible. May I ask you to confirm your bulk orders with the IAEA Division of Publications in due time.

The sales price for the 1984 CINDA books could be kept 6% lower than anticipated in the cost estimates of Memo 4C-3/259. This cost saving was mainly due to the condensed format described in Memo 4C-3/266 (whereby half-empty pages at the end of each element were avoided and the introductory text in the Supplement book was shortened). Having received no negative comment on this condensed format, we assume your approval to use the same format also for the forthcoming issues. As a result, the number of pages to be printed per year will be lower than the estimates given earlier in Memo 4C-3/259. See page 3 of this memo for a forecast of the CINDA sales price for the forthcoming years.
