From: M.M.Seits *Thomas Seits*Subject: Schedule for CINDA Book Production at NDS

I plan to implement the NDS online CINDA System and the Book production at NDS independently of each other. This way it will be possible to adhere to the proposed transfer schedule of the Book Production to NDS, namely that CINDA85 Supplement will be the test case for the production of the Book Tape at NDS. The Book tape produced at NDS will be compared with the Book tape produced at NEA-DB. If this test case is successful, the complete CINDA Book production as of 1986 will be done at NDS.

I request the continued sending of the Lab-sort tape from NEA-DB on a quarter-yearly basis, as is currently done. The "Create Book Tape" program to be written by NDS will use the Lab-Sort tape from NEA-DB as input master file. In a later letter I plan to detail my proposed schedule for implementing the NDS CINDA System and the CINDA Exchange System between NDS and the other centres.

Detailed schedule for CINDA Book Production at NDS:
(please also see Memo 4C-3/277)

Apr 1985	NDS receives CINDA85 Book tape from NEA-DB and soon after, the complete Lab-sort tape
May 1985	NDS write program "Create Book Tape"
Jun 1985	Test program "Create Book Tape": The test will use the Lab-sort tape received at NDS from NEA-DB. The Book tape created at NDS will be compared to the CINDA85 Book tape.
Oct 1985	NDS receives CINDA85-Supplement Book tape from NEA-DB and soon after, the complete Lab-sort tape
Nov 1985	Test case: "Create Book Tape": The test will use the Lab-sort tape received at NDS from NEA-DB. The Book tape created at NDS will be compared to the CINDA85-Supplement Book tape.
Apr 1986	NDS receives Lab-sort tape from NEA-DB, produces Book Tape, and initiates Book production.
