Subject: Implementation of Tri-lateral CINDA Exchange System

We have received tape E85K04 from Saclay containing the "Book" files. This tape also contains a "Lab Sort" file.

I will now load this "Lab Sort" file into our production data base as planned. This file will become the NDS CINDA Master file. We are now ready to implement the new NDS CINDA System and the full Tri-lateral (NNDC, NEA/DB, NDS) CINDA Exchange System as described in the document, "CINDA Exchange System, System Specifications" that was attached to Memo 4C-3/283 of 11 Sep. 1985.

With this letter, I would like to remind NNDC and NEA/DB to include NDS in your CINDA Exchange system. Please now send all updates to your CINDA files in the Exchange format also to NDS. We need to receive all updates applied to your CINDA data bases since the creation of tape E85K04 from Saclay.

We will also include all updates to Area 3 and 4 entries in the Exchange format with our next tapes which will be Batch WIE263. We assume that Batch WIE262 updates were included in the "Lab Sort" file we received from Saclay.
