

Memo 4C-3/311

15 June 1987

To: Distribution

From: M. Lammer and H.D. Lemmel

M. Lammer *H.D. Lemmel*

Subject: EXFOR index lines in CINDA

Ref.: Memos 4C-1/191 of 87/5/29
4C-3/306 of 87/1/30

We agree to the proposal of entering EXFOR index lines in CINDA for EXFOR data that are in process but not yet transmitted, as proposed in 4C-1/191 solution 1. A similar solution had been proposed earlier in 4C-3/306 with the additional suggestion to enter such index lines with hierarchy 6 but with ref-type = 0 (zero). With this ref-type the printing of the data tag in the book would be suppressed.
