

23 February 1990

To: Distribution

From: H.D. Lemmel *Lemmel*

Subject: CINDA book schedule  
-----

As announced at the 1989 data centres meeting we will publish in 1990 a complete CINDA archival issue with entries up to end of 1987 plus the current issue CINDA 90 containing entries from 1988 to present. The archival issue will be called "CINDA-A (1935-1987)". (The reference date of the main reference of a block determines whether a block is included in the archival issue or in the current issue.)

Please find attached the publication schedule. For technical reasons we have to stick to the spring deadline because the phototypesetting machine and the film processing equipment will be phased out as soon as the CINDA production is finished. However, the deadline for CINDA-A will be a few weeks later than the deadline for CINDA 90.

The price estimate is still uncertain. A rough estimate is

CINDA-A, 5 vols, together about 3200 pages, ca. 4200.- AS.  
CINDA 90, about 350 pages, ca. 460.- AS.

We understand that there will be no bulk orders from NEA-DB and NNDC. We will have a limited number of free copies for distribution to CINDA co-workers and to the main data evaluators. Accordingly, we request NEA-DB, NNDC and CJD to send us a proposed distribution list for recipients in their respective service area sorted by priority. We should receive these lists by 25 March at latest in order to determine the number of copies to be printed.

Clearances: J.J. Schmidt *W. Schmidt*  
W.A. Dietl *W. Dietl*

Distribution:

S. Pearlstein, NNDC  
N. Tubbs, NEA-DB
