<u>Memo 4C-3/354</u>

23 November 1990

To: Distribution

From: M. Lammer

Subject: Numbering of NDS CINDA batches

A new era in the CINDA centres exchange system has started since CJD has taken over as an independent centre. From now on the NDS exchange files will only contain area 3 entries. Therefore, and to conform with the batch names from other centres, NDS will start with new CINDA batch names and numbering:

- The last EXCHANGE batch of the old series containing area 3 and 4 entries was WIE294.

- The first EXCHANGE batch of the new series with only area 3 entries will be NDS001.

CJD started a new series of CINDA batches in 1990 with CJD001 in READER and EXCHANGE format:

- Up to CJD003, which was exchanged as WIE294, the CJD exchange files were only sent to NDS for parallel processing (see Memo 4C-3/352).

- From CJD004 onwards, area 4 exchange entries will be transmitted by CJD.

Clearance: J.J. Schmidt
