MEMO CP3A/31

Date: December 28, 1982
 From: G. Zhuravleva *Zhuravleva*
 Subject: Addition to comments of Dis. 36

To simplify the checking program we propose the following rule: the codes, which may be added to any quantity code = modifiers and ^{data}-type, must be placed after the meaningful combinations. Since we have never encountered a construction such as ",SIG,,RAW/A", our rule agrees to common practice.
