

MEMO CP-A/137

25-Apr-2003

To: **Distribution**
From: **F.E. Chukreev**
Subject: **Addition to Dictionaries 27, 28, 29**

I would like to add for fundamental particles list in MEMO CP-C/317 :

ETA (η) meson 0-ET-0

I would like to repeat words of V. McLane: "This is not elegant, but will allow us to get on with any coding."

I believe, that V. McLane proposal (see MEMO CP-C/317) will be accepted by our community (may be a little modification will be needed). The proposal will permit to compile *inclusive* reactions with fundamental particles.

Please note the following Dictionary 28 addition:

ETA Eta meson

Please note the following Dictionary 29 addition:

ETA Eta meson
