Memo CP-D/505

Date: 10 June 2008
To: Distribution
From: O. Schwerer, N.Otsuka

Subject: Revised Manuals (EXFOR Basics)

In fulfilment of Action A16 of the last NRDC meeting, the EXFOR Basic (IAEA-NDS-206) has been updated.

It is not only an update of the old version (issued in 2000 by V. McLane) but its scope was extended by adding Chapter I (general introduction to EXFOR) and Chapter III (description of computational format and quick overview of some other output formats). In order to better reflect its actual content and purpose, the title was changed to “EXFOR Format Description for Users (EXFOR Basics)”, following a suggestion by Viktor Zerkin.

The revised manual is available for download from the NRDC web page <http://www-nds.iaea.org/nrdc/>
