

**Nuclear Data Section  
International Atomic Energy Agency  
P.O.Box 100, A-1400 Vienna, Austria**

**Memo CP-D/754**

**Date:** 4 July 2012

**To:** Distribution

**From:** N. Otsuka

**Subject: Dictionary 8 (Element) – FL (Flerovium) and LV (Livermorium)**

The following changes are proposed for the element of atomic number 114 and 116 [1]. The name was approved by IUPAC on 23 May 2012.

**Dictionary 8 (Element)**

114-FL	Flerovium
116-LV	Livermorium
114-*	(Delete)
116-*	(Delete)

[1] R.D. Loss, J. Corish, [Pure. Appl. Chem., 84 \(2012\) 1669](#).

Four entries (A0889, A0891, A0910 and C1822) are affected by these new element codes. I am going to update the dictionary 227 based on the latest Wallet Cards so that new isotopes are recognized by programs.
