Subject: CINDA book schedule and price estimate  
-----

Please find attached the publication schedule for CINDA 91.

As announced at the 1990 Technical NRDC Meeting, the CINDA books will be produced by laser printer from 1991 onwards. This requires substantial changes in the book production programs, which turned out to be more difficult than envisaged. Unfortunately, our new staff member Ramon Arcilla, who is responsible for these program changes, was not available before February 1991. Therefore the deadlines given in the attached schedule for the production of the book master and the completion of the printing and binding have to be regarded as tentative, based on optimistic estimates by experts if no major problems will arise.
