

MEMO CP-A/95

25 January 1999

To: **Distribution**
From: **F.E. Chukreev**
Subject: **LEVEL-PROP keyword.** (a little remark to **EXFOR Basics**)

Page B.5 contains now:

“Level-Energy . Identifier E-LVL= followed by excited state energy in MeV, coded as a floating-point number which also appears in the data section under the data heading E-LVL.”

I would like to propose to permit to use E-LVL-INI and E-LVL-FIN for Level-Energy. It will be useful for correct compilation. Then the sentence must be changed for:

“Level-Energy . Identifier E-LVL= (E-LVL-INI= or E-LVL-FIN=) followed by excited state energy in MeV, coded as a floating-point number which also appears in the data section under the data heading E-LVL (E-LVL-INI, E-LVL-FIN).”
