

MEMO CP-A/137

25-Apr-2003

To: **Distribution**  
From: **F.E. Chukreev**  
Subject: **Addition to Dictionaries 27, 28, 29**

I would like to add for fundamental particles list in MEMO CP-C/317 :

**ETA ( $\eta$ ) meson      0-ET-0**

*I would like to repeat words of V. McLane: "This is not elegant, but will allow us to get on with any coding."*

I believe, that V. McLane proposal (see MEMO CP-C/317) will be accepted by our community (may be a little modification will be needed). The proposal will permit to compile *inclusive* reactions with fundamental particles.

*Please note the following Dictionary 28 addition:*

**ETA**            Eta meson

*Please note the following Dictionary 29 addition:*

**ETA**            Eta meson
