Memo CP-D/373

Date: 14 November 2003
To: Distribution
From: O. Schwerer

Subject: Subdirectory for "problematic" entries (Reminder)

As decided at the past NRDC meeting (Conclusion C1, new item 9 of NRDC Protocol), a special subdirectory NDSX4.TRANS.PROBLEMS was created in the NDS open area for entries which are removed from PRELIM transmissions (not copied to final TRANS). (These entries are to be reviewed by the other centers and finalized (at the latest) at the next NRDC meeting.)

Though some entries were removed from PRELIM files recently, so far no entries were sent to the PROBLEMS subdirectory. It is the responsibility of the originating center to decide whether they can, after further studying it, transmit such an entry regularly with the next PRELIM file, or to send it to the PROBLEMS subdirectory. Therefore I propose to all centers concerned to review any affected entries of their area and make use of this possibility.

I propose to add the entries in individual files named accno.x4, such as 12345.x4.
