Memo CP-M/18

DATE: January 29, 2003
TO: Distribution
FROM: V.V.Varlamov
SUBJECT: Proposal to delete the ENTRY G0006 (substitute by new ENTRY M0636)

In preparation of the new CDFE TRANS M032 because of many needs I decided to compile into EXFOR many digital data from the article
G.J.O'KEEFE,M.N.THOMPSON,Y.I.ASSAFIRI,R.E.PYWELL,SHODA
(J,NP/A,469,239,1987)
and immediately found out its duplication with ENTRY G0006, prepared long ago by IAEA NDS.

Simple looking through G0006 reveals that in this ENTRY:

- experimental data are not included;
- only additional results are presented;
- there are many mistakes in all subentries (G0006001, 002, 003).

Therefore I suppose to delete G0006 (in fact to substitute it by new ENTRY M0636).
