**MEMO CP-N/12**

**DATE:** 27 April 2001  
**TO:** Distribution  
**FROM:** M. A. Kellett  
**SUBJECT:** Change of Institute Code for Dictionary 003

In response to the confusion regarding the following (as mentioned in Memos CP-C/279 (revised) and 4C-4/120) I would like to confirm the following institute name expansion change for dictionary 3.

The old expansion for the code was;  
**2SF ABA (Physics Dept. Abo Akademi, Abo)**

which should be updated to;  
**2SF ABA (Abo Akademi, Turku)**

The removal of **Physics Dept.** from the code I think is now standard practice and the town name change is merely a translation of the name from the Swedish (Abo) to its Finnish equivalent (Turku). The institute is the Swedish speaking university in this town hence the use of Abo in its name. Also note that the country code for Finland will remain **2SF** as there seems no formal reason for a change.

I hope this clears up any of the previous confusion.

Kind Regards,

Mark
